Ionian Khora: Fragility and Resilience of Rural Landscapes in Ionia

ABSTRACT

Archaeological practice in Ionia has a long history that mainly focused on the urban centres and monuments. Within the last three decades, owed to the archaeological surveys conducted at rural landscapes we have a better understanding of rural lives and landscapes of Ionia. KLASP is a survey project dedicated to exploring the khorai around Klazomenai, Teos, Erythrai and Lebedos diachronically. The lecture will present the results of the KLASP project and a holistic assessment of evidence from rural territories in Ionia.

The lecture takes place on **Wednesday, January 18, 2023, at 7pm (Athens)** in a hybrid format with live presence at the Swedish Institute at Athens, Mitseon 9, and online via Zoom.
